

2025 MID SEASON
CATALOG

S M I L E T H A T C A N ' T B E C O M P A R E D

Each piece in this collection feels like a narrative woven from strands of rattan.

The tactile allure of the handcrafted bindings and the gentle arcs of **thekubu+** designs evoke the serenity of a by gone era while remaining distinctly contemporary.

Imagine the buttery smoothness of a polished rattan chair under your fingertips or the gentle creak of its frame as you settle in, surrounded by the warmth of natural textures. These aren't mere furnishings, these are experiences

OUR CRAFTSMAN SAY 😊

In our area, the city of Cirebon, West Java – Indonesia, there are approximately 400 villages where the majority of the population are workers who have rattan weaving skills and this is part of the local wisdom that needs to be preserved.

The inheritance of skills passed down from generation to generation is part of the creative economy industry, making our family's livelihood now and in the future, having the expertise of scientific experience passed down specifically in processing rattan to create desired and quality products,

THE HERITAGE
KASEPUHAN PALACE
CIREBON - WEST JAVA

MATERIALS

RATTAN

The natural and synthetic rattan base materials flexible due to their high quality. This makes them ideal materials for crafts and furniture.

WOOD

Wood is a basic material used to enhance strength and beauty. It's often suitable for both indoor and outdoor use. It also tends to look beautiful and lends elegance to any space.

ROPE

Made from fiber, twisted rope is a good choice for outdoor activities. Our products use acrylic rope, which is known for its high quality..

FABRIC

Our wide selection of indoor fabrics and our excellent outdoor sun protection fabrics achieve good quality, durability and longevity..

ALUMINUM & STEEL

Aluminum and Steel are popular materials for outdoor furniture. Strong, durable, the powder-coated process ensures long-lasting quality.

WEAVING HEADBOARD
SYNTHETIC & NATURAL

A S L E E P O R A W A K E
I D R E A M O F Y O U
A L L T H E S A M E

Weaving headboards lend their natural aesthetics to beds, making them a popular choice for beds.

Rattan is often preferred for its flexibility, durability, light weight, and ability to complement a variety of interior styles.

ARCHITECTURE IS REALLY
ABOUT WELL-BEING

CEILING

The upper interior surface of a room that encloses the room and provides a finished surface. This surface has both functional and aesthetic functions, influencing the acoustics, lighting, temperature, and overall design of the room.

Rattan material is an aesthetic choice in architectural design, with the choice depending on factors such as aesthetics and acoustics..

FACADE

It serves both aesthetic and functional purposes, contributing to the building's visual identity while also acting as protection against weather and other external factors. Essentially, it's the building's "face."

WALL DIVIDER

Their primary purpose is to create separate rooms, increase privacy, or organize space for various purposes. Unlike load-bearing walls, partition walls do not support the weight of the structure above them..

WALL DECOR

Integrated art installations feature more complex features such as rattan wall panels, Wall decoration is a crucial aspect in architecture and interior design, which serves to define artwork, express style, and create the desired mood or atmosphere....

RATTAN CANEWEBBING
SYNTHETIC & NATURAL

MAKE IT SIMPLE
BUT SIGNIFICANT

RATTAN CANEWEBBING

Rattan is versatile and can be used for a variety of projects, from renovations and furniture to decorative accents. It's easy to shape and install. With the right tools and a little patience, you can easily create your own stylish rattan-woven creations.
